New yr's prayer; reprint of January 2, 1942 editorial; three wks after Pearl Harbor, Pres Roosevelt asked nation to set aside New Yr's Day for prayer for Divine guidance; peoples of all countries, friend, foe, look to same God for help, understanding; mistakes of errant world come back to plague us, Ja 2 p 76, 75

Revamping Govt; former Pres Eisenhower in "Reader's Digest" article proposes changes in tenure of Sens, Reps, fed judges, in time of holding Pres elections; subject of reconstructing our const system is at last being placed before country, may start movement toward revamping Govt, Ja 9 p 88

What's new about yr? if Amer politics should somehow begin to serve best interests of people, if handling of public funds should come to be regarded as sacred trust, then we could look back next December, agree 1967 was indeed new yr, Ja 16 p 100

"Guns, butter, too"; in his address to Cong, Pres seems to feel domestic econ can support costly war, yet continue huge deficits; Pres would continue to spend billions for "butter" that might instead be used to build antimissile defense; when will Admin face econ facts? Ja 23 p 112

What kind of "federalism"? we have come to crisis in evolution of Govt in Amer; Pres, various mbrs of Cong urge "new federalism", "creative federalism"; but Amer people are threatened by destructive federalism, have right to establish system that co-ordinates power of fed, State govts, Ja 30 p 104

Obeying law? what shall we say when Dept of Govt disregards express provision of 1964 Civil Rights Statute, issues equivalent of regulations on important matter without sanction of Chief Exec; to ignore act of Cong or to violate its specific provisions is another tragic infringement during our era of "civil disobedience", F 6 p 96

Teaching of morality has not been tabooed; however beneficial religious exercises or prayers could be in schools, Supreme Ct has ruled against them; but good behavior, morality, good citizenship can be taught in schools without reference to any religion, should be integral part of daily calendar, F 13 p 112

"Arrogance of power"; is it right for Chrmn of Sen Foreign Relations Com to make speeches giving impression to world that he is spokesman for majority in Sen; mbrs of Sen can advise Pres privately, but should not indulge in "arrogance of power", lead our enemies to believe we are willing to make peace at virtually any price, F 20 p 120

Press, too, is "educ"; Fed Govt makes no charge to any television or radio station for use of air channels in delivering news to public; press, too, is educ, should be able in free Amer to disseminate information, maintain educ functions without financial penalties being imposed by Govt, F 27 p 108

LAWRENCE, DAVID—Contd.

Time to change pres system; new const amdt provides for prompt transfer of exec power to Vice Pres if Pres is disabled; but when will we get another amdt permitting transition from one pres to another immediately after election, Cabinet govt subject to constant check by Cong, all people, Mr 13 p 124

If Powell comes in, will 14th Amdt go out? if Supreme Ct is willing to take case involving right of House of Reps to deny seat to mbr, Ct will be morally obligated to decide whether present 14th Amdt should be cast out of Const because it was fraudulently adopted, Mr 20 p 124

"I am tired housewife"; article by Mrs J P Strickland, in response to editorial "I Am Tired Amer", reflects further some of discontent over different aspects of Amer life today, Mr 27 p 112

What happens to profits? it is important that there be wider understanding of profit system; profits must be looked upon as constructive force in development of nation's resources, should not be regarded as pie for workers; emphasis should be placed on capital requirements in era of population explosion, Ap 3 p 96

How many have ever read "balance sheet"? "balance sheet" is often confused with "profit, loss statement"; latter is important, tells amount of income, expenses incurred in given period, but "balance sheet" presents over-all picture of where business may be headed, should be studied by labor leaders, Congmen, officials of Admin, Ap 10 p 124

Cheating people; Amers today are suffering from continuous inflation, savings are reduced in value; while money loaned is repaid in same no of dollars, purchasing power of dollar is cut down every yr; people can be cheated some of time, but in long run they become convinced there is no substitute for policies dedicated to sound money, Ap 17 p 112

"Blade of righteous sword"; text of article by Dr Frederick Brown Harris, Chaplain of U S Sen, from "Washington Star", which answers question as to what is religious justification of right of self-defense against aggression, Ap 24 p 120

What are "ethics" in politics? ethics in politics not easy to define, existing statutes forbidding certain political contributions require disclosure, limit amounts that may be donated have been consistently ignored, My 1 p 116

Challenge of our times; there have been many trying periods in Amer history, but nation has responded to challenges, moved forward; problems Amer will face in following decades are bound to be complex, but can be solved if there is inherent sense of morality, My 8 p 108

Why U S troops are in Vietnam; if not for collapse of UN, Amer troops in large nos would not be in Vietnam now; peace cannot be achieved unless all UN mbrs take seriously emerging war threat, My 15 p 124, 123

"Revolution"; Amer passing through era of indifference to law, order; acts of defiant minority deprive law-abiding majority of right to "life, liberty, pursuit of hapiness", we have forums, channels for orderly debate, My 22 p 116

Is declaration of "state of war" needed? reprint of Jl 26, 1965 edtl; under NATO treaty we must act without action by Cong, under SEATO, UN charter there are reservations; Pres Johnson can proceed on assumption public sentiment behind him, but would be better advised to ask Cong for resolution declaring "state of war" in Vietnam, My 29 p 104, 103

The voice of soldier in Vietnam; letter from Daryl E Capurro, First Lieut, U S Army, serving in Vietnam, gives reasons why Amer fights to aid nation struggling for right to decide own destiny, Je 5 p 112
